olenazubashenko@gmail.com  
skype: olenazubashenko

I'd like to join a friendly team of cool developers, where I can grow, study and produce a good useful product. Most of all I want to grow as React Developer.

## My skillset includes:

- Writing comprehensible and semantically correct **HTML** code
- Ability to write **CSS**, both manually and using preprocessors Sass/Scss
- Understanding of modern web design (**cross-browser compatibility, adaptivity**)
- **Bootstrap** using experience
- Hands-on experience and understanding of **JavaScript**
- Basic knowledge of **React**
- Good command of **Photoshop/Figma/Avocode**
- **Git** working proficiency

## See my projects:

**Sport** <https://github.com/OlenaZubashenko/sport> (HTML, CSS, JavaScript)

**Worlds of tanks** <https://github.com/OlenaZubashenko/World-of-tanks> (HTML, CSS, JavaScript)

**Landing Taxgig** <https://github.com/OlenaZubashenko/landingTaxgig> (HTML, CSS, JavaScript)

**Landing Page** [olenazubashenko.github.io/landingpage.github.io](https://olenazubashenko.github.io/landingpage.github.io) (HTML, CSS, JavaScript)

## WORK EXPERIENCE

**Project Manager**, “Yamasters” Kyiv, Ukraine, 3 years

I've got great experience working in a team, prioritizing tasks, and working with clients. My responsibility was to help clients in choosing an Internet resource for their business, implementation and further support of the project. Also my responsibility was to write requirements for frontend and backend developers. I was working with clients in order to create technical specifications for the project.

## EDUCATION, COURSES

International Science and Technology University Academician Y. Bugay (MNTU),

Html Academy “Basic course of HTML and CSS”,

MA “Frontend developer course (JS/React)”
